www.matrix-trans.com

Matrix Logistics has been founded in year 2004 by two enthusiastic young colleagues who have devoted themselves to transport and automotive business, by combining their experience, knowledge and energy.

Matrix provides a satisfactory service on international and domestic transport of all types of vehicles, by combining its highly developed relations with big shipping lines, land transporters, own investments and driver team.

With the help of its high volume, Matrix is capable of reaching very competitive rates by creating new alternative routes, consecutively providing its clients significant cost efficiency.

While the main trade area is Europe and Turkey, Matrix is very active on the transport of export and transit vehicles to the regions like North Africa, West Africa, Middle East and CIS countries.

Being one of the major service providers in the Turkish market, Matrix Logistics has been continuously investing on special truck carriers, car carriers and warehouses since 2006.

introduction

“We provide tailor-made transportation services of the highest quality for vehicles as well as project cargoes.

Combining our experience and innovative spirit with hard working manner of our Team is the key of our long term success.

We believe that we are only as strong as our weakest link; therefore we always support our team in many ways such as trainings, seminars, extra benefits and positive approach.

We offer flexible transport services to the vehicle manufacturers, distributors, body builders, private investors and forwarders.

Providing very creative transport combinations is another big asset in order to meet the special requirements of our clients.”

introduction

- Driving on own wheels; temporary plates and experienced drivers
- Transport on special Truck Carriers
- Ro/Ro shipments
- Transport on Car Carriers
- Trailer Trucking
- Combined transport solutions (Land, Railway, Ro/Ro)
- Documentation for L/C requirements (B/L, CMR, FCR)
- Transit & Import Customs services
- Full Cover Insurance
- Warehouse Services (Bounded & Non-Bounded)
- Project Shipments, Chartering & Brokering

services

services

The range of vehicles Matrix transports;

- Heavy Commercial Vehicles (Trucks, Buses, Trailers, Midi-buses..)
- Light Commercial Vehicles (Vans, chassis, pick-ups..)
- Cars
- Military Vehicles
- Construction Machines (Excavators, Loaders..)
- Agricultural Vehicles (Tractors, Harvesters..)

truck on truck

Matrix has own fleet of specially designed truck carriers, which meet the "0 mileage delivery" need of clients. These special trailers can load and carry High & Heavy vehicles

- Truck Tractors (LF= 3 units)
- Chassis Trucks (LF= 2 units)
- Backhoe Loaders (LF = 2 units)

Advantages of Truck on Truck service;

- 0 mileage delivery
- easy loading and unloading operations
- low damage risk
- cost efficiency
- environment friendly
- higher capacity

delivery on wheels

Using its own experienced driver team, Matrix moves heavy commercial vehicles (trucks, buses) by driving them on own wheels.

Unregistered new vehicles can only be officially driven on the road by using temporary plates. Matrix has its own temporary plates, validated yearly and registered to the company with all official liabilities.

On Wheel Service range includes Turkey, Europe, Russia, Middle East and CIS countries. Matrix is capable of handling transport and transit operations between all these countries. During whole transport process, all vehicles are under 110% insurance coverage.

transport of buses and LCVs

transport of buses and LCVs

Nothing is impossible ; We succeed on secure delivery of long buses in 0 mileage with our own specially designed trailers.

Midibuses and LCVs (Light Commercial; Vans, Pick-ups) are transported on both car carriers and truck carriers. Loading factor depends on the dimensions and wheelbases.

Car Transportation

car transportation

Establishing international network & systems on commercial vehicle segment and the high success on this field has forced Matrix to penetrate into Car Transportation segment. Since 2007, Matrix has been investing on own Car Carrier fleet, and providing services, such as;

- Domestic Car distribution in Turkey
- International Car transportation by own Car Carrier fleet
- Ro/Ro shipments for cars when multi-modal transport needed.

West Africa (Twice a month):
 Derince/Antwerp/Le Havre/Cape Verde/Dakar/Abidjan/Takoradi/Lagos and others

main shipping areas

Mediterranean Service (weekly regular):
 Bremerhaven/Antwerp/Zeebrugge/Bristol/Vigo/Sagunto/Livorno/Piraeus/Derince/Marseille/Vigo/St.Nazaire/Le Havre/Zeebrugge/Antwerp/Bremerhaven
North Africa (2-3 times a month):
 Derince/Izmir/Mersin/Tripoli/Misurata/Benghazi/Tunis/DjenDjen/Casablanca
BlackSea Service:
 Pireaus/Derince/Ilichevsk/Constanta,Samsun/Novorosisk,Zonguldak/Skadovsk/Evopotaria

main shipping areas

Middle East Service (2 times a month):
 Derince/Mersin/Aqaba/Jeddah/Mombasa/Dar es Salaam/Port Sudan/Dubai and others

ro/ro shipments

Matrix is a very creative transport provider on Ro/Ro shipments to any possible destination.

While main partners in Ro/Ro business are UECC and MOL, to reach the final destination in most effective way, Matrix is cooperating with many worldwide shipping lines such as EUKOR, NORDANA, GRIMALDI, NYK, WALLENUS and HOEGH.

Matrix has very high shipment volume and strong relations with shipping lines which enables it to provide competitive rates, flexible

shipment dates and space priorities. Positive relations with the agencies of these shipping lines provides smooth documentation flow and difference in service quality.

trailer trucking

trailer trucking

Matrix has its own truck tractor fleet, and provides trucking service for trailer types, such as;

- standard trailers
- tripple kits
- lowbeds
- tankers
- silobuses

to destinations, such as;

- East Europe
- Turki Republics
- Russia & CIS
- Middle East
- Domestic deliveries in Turkey

railway solutions

railway solutions

There are times the best solution becomes combining your transport with a Railway, which is cost effective and sometimes the only way to reach your desired destination. If you have hundreds of commercial vehicles to be delivered to the final destination in a short and certain deadline, then our railway solution will be the best proposal to handle the high volume on time.

This service is very effective in countries where the railway system has been developed well, such as Europe, Russia and CIS.

warehouse & customs services

Matrix has its own bounded/customs warehouse in Istanbul, Orhanli region, the area has been pointed as Logistic Center of Istanbul by the Turkish Government.

The land has a perfect location; short distance to Pendik and Derince ports; very easily reachable by highway connections; and only 20 km to Gebze Automotive customs.

The warehouse is one of the best modern warehouses in Turkey; well constructed by concrete and secured by fulfilling all customs requirements, such as 7/24 camera surveillance etc.

Storage & handling services as well as import/export and transit formalities for new vehicles are served in Matrix Warehouse. PDI service is possible upon request.

Matrix has additionally non-customs warehouse in Izmit, providing storage service for local production, and pre-export vehicles.

Total storage capacity is 38.000 sqm.

Additional to the warehouse services, below customs services are provided by Matrix during transportation process;

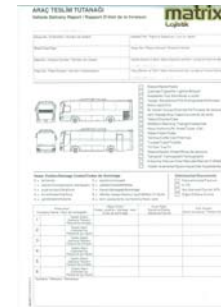

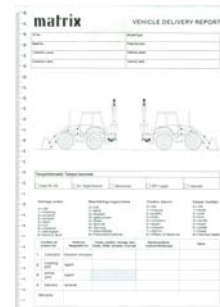

- Transit / Export / Import Customs Formalities
- TIR Carnet / ATA Carnet / A.TR Services

Transport Certificate:

Matrix operates under C2 certificate which has been issued by Turkish Transport Ministry for domestic and international transports.

Vehicle Delivery Reports :

Quality Management

Matrix has been certified by NCS International for establishing and using ISO 9001:2000 international quality standards, and for operating a management system that complies with requirements of ISO 14001:2004.

Documentation

L/C Requirements:

Whenever it is a subject of L/C (Letter of Credit), Matrix is able to provide the related documents (FCR, B/L, CMR, Insurance Policy..) as per L/C requirements.

All vehicles we move are delivered by mutual sign on Vehicle Delivery Reports, and the drivers are regularly trained for a delivery in good condition by maximum care! Controlling the vehicles in each step (Collection, POL, POD, Delivery) provides a maximum care by all involved parties. Vehicle Delivery Reports are designed according to different type of vehicles we move.

Membership

Matrix is a member of ECG-The Association of European Vehicle Logistics, and UND-The Turkish Association of International Transporters.

SHIPPING

Project Cargo, Shipping & Chartering

Project Cargo, Shipping & Chartering

In 2009, Matrix has realized that there is a lack of service quality and low customer satisfaction in the chartering & project cargo business. Consecutively Matrix Shipping has been founded.

By combining its high know-how and experience in RoRo & Chartering business with its land transport sources in one hand, Matrix provides operational and cost efficiency to its clients.

Matrix Shipping team equipped with highly qualified and experienced specialists guarantee careful planning of each step, professional handling, coordination and supervision to ensure safe transportation and delivery.

Thanks to our team, within a very short period we have succeeded on project shipments of important construction companies, such as CENGİZ, ENKA, NUROL and DOĞUS. Our growth's fast pace continues since then.

Our aim is to bring the Shipper & Owner together and strike a deal which will be to the mutual benefit and satisfaction of each party.

In addition to our regular line services, we also charter Ro-Ro vessels and Project vessels for specific cargo.

Our 'hands on' operations and knowledge of the worldwide freight market, is available at any time.

Matrix Shipping operates worldwide, but it has mainly focused in the region of Black-sea, Mediterranean, West Africa, Middle East and East Africa.

Main Services of Matrix Shipping;

- Project Cargo
- Chartering
- Ro-Ro Shipments
- Brokerage & Ship Management
- Agency services
